

# 2017 SUMMER INSTITUTE: EDUCATION FOR SUSTAINABILITY

*"This has been the best workshop I have attended so far in my [19-year] career... Adapting to the needs of the participants really modeled how we should approach teaching and learning in our classrooms."*

- Kim Caporaso  
Mamaroneck High School teacher,  
Summer Institute 2016

## PROFESSIONAL LEARNING FOR K-12 EDUCATORS ALL SUBJECT AREAS

Today's students are Tomorrow's leaders. Join us at the Summer Institute to learn how to transform learning by engaging students in ways that connect them to the world around them and understand how everyone has the ability to change or impact a system, community and themselves.

**Hands-on workshops | Cutting-edge presentations |  
Topical breakout sessions | Field Trips**

An ideal balance of **INSPIRATION** and **PRACTICAL SKILLS** to enhance learning through Education for Sustainability in your curriculum and school community.

**Climate Change Demystified:** Experience the Climate Interactive, MIT's climate simulation model  
**Eco-tech in (and out of!) the Classroom:** Learn with Harvard Graduate School of Education's Dr. Amy Kamarainen  
**Media Literacy in the age of Fake News:** Engage with Andy Revkin, ProPublica senior climate reporter
