Presentation Questions, Comments, and Closing Remarks

- Catherine Price: How do you make sure the site is accessible and welcoming for a wide variety of people?
- Sheila Cubick: Do you plan to include traditional evidence-based herbs in this model?
-
- Nishant Jain: How do we foster ecological literacy in healthcare
- Stella Tarnay: What connections do you see to the Montessori schools movement, and Aldo Leopold? It seems there are resonances throughout history.
- Jennifer Charette: What opportunities do panelists see for zoos and aquariums in this One Health approach?
- George Gehrig: Did you use the "Singapore Diversity Index"?
- George Gehrig: Have you encouraged people to organize for the international City Nature Challenge?
- Sara Rudolph: How do we avoid reinforcing the idea that nature exists solely for human needs and consumption within One Health projects while still educating and animating people about all the benefits that we do receive from it?
 - Sarah Brenkert: @Sara Rudolph, I really appreciate that question. It makes me think about the recent report from the IPBES about the different ways people value nature – super interesting for those of us thinking about reaching people where they're at – https://zenodo.org/records/10361930/files/values_factsheet.pdf?download=1
 - Sara Rudolph: @SarahBrenkert – Thank you for sharing this resource.
- Natalia Worman: What was the process like to develop your One Health Map? What were key data sources you leveraged?
- Muhammad Abdullah Farooq Javed: What are the prospects of Health One working in Global South?
- Cheryl Talley: Are there any certifications being offered by the One Health Community
- Jeftey Saint Fleur: Very nice presentation. What do you think about integrating AI in one Health concepts?
- Adrienne Rajna: Will there be a recording of this Webinar that we can share with our organization?
 - Carrie Albright, NAAEE Staff: These are all fantastic questions, thank you for sharing! And Adrienne, you'll receive an email with the recording in the next few days!
- George Gehrig: Could there be county level lists of TES species, and, more importantly, a list of the species that counties have extirpated?
- George Gehrig: Could there be Biodiversity Halls of Fame established at each school to give recognition to the students who are connecting with nature?
