

eeRESEARCH: Bringing Research to Life

A Summary of Current Research Initiatives

Joint Initiatives

Research Library -

User-friendly summaries of peer-reviewed journal articles prepared by C&NN and NAAEE to expand access to research for constituents of both organizations.

Science of Nature-Based Learning Collaborative Research Network - Convened by C&NN, NAAEE and U of MN, with funding from the National Science Foundation, two dozen researchers and practitioners are working to enhance nature-based learning research and its application.

NAAEE Initiatives

Blueprint for E-STEM -

With help from Underwriters Laboratories and NewKnowledge, NAAEE is looking into how best to integrate EE into STEM fields, rather than keeping it separate.

eeLEARN -

Online modules that explore important topics within EE, with a new one coming soon on Research and Evaluation.

Research Symposium -

Bringing together over 150 researchers from around the world to look at the effective research practices and the direction that EE research is going.

Environmental Education Research Bulletins (EERB) - Summaries of recently published research made accessible for all EE practitioners.

NAAEE Initiatives Cont.

Research and Evaluation Group -

Creating a space for EE researchers to collaborate and communicate with shared opportunities and resources.

My EE Evaluation Resource Assistant (MEERA) -

User-friendly tools that assist with research and evaluation in a comprehensive, yet easy-to-understand way.

eeWORKS -

NAAEE, Stanford, and other partners are using researched evidence to display efficacy and benefits of EE.

Making the Case Webinars -

These webinars feature experts in the field to inform viewers about equitable access to nature.

Infographics -

These infographics feature research findings on nature's impact on health and educational outcomes in exciting and accessible ways.

C&NN Initiatives

C&NN International Conference and Leadership Summits -

An alternating cycle of invited international leadership summits and conferences. The Oakland International Conference, May 16-18 2019, welcomes registrations beginning in early fall.

Research Digests -

A monthly newsletter featuring hot-off-the-press research findings or research focused on select topics.
