

Population Education:

Science & Social Studies Activities for Global Citizenship

Professional
Development
Opportunity!

On **February 11th**, come join the **Oxbow Meadows Environmental Learning Center** and **Population Education** for an interactive, 2.5 hour **professional development workshop**. Understand global challenges and sustainable solutions through hands-on activities that utilize **real world issues** and **data**.

Explore **interdisciplinary learning strategies** that challenge students to make meaningful associations between individuals, communities, and global issues, while building **essential skills** in **social studies, geography, science, and math**. Presented activities use role-playing, representational models, group problem-solving, and simulation games to explore the **social and environmental impacts** of **human population growth**.

by February 10, 2017

Questions? Contact Elizabeth Black,
Professional Development Coordinator
eblack@populationconnection.org

Participants will receive:

- 2.5 hours of professional development training and a certificate of completion
- **A curriculum CD with over 60 full lesson plans aligned to GA & AL state and national standards**
- Additional age-appropriate teaching resources and access to Population Education curriculum items

Population Education is the only national education program with a strong emphasis on human ecology.

The Oxbow Meadows Environmental Learning Center provides exhibits and nature trails to the Columbus community while also offering formal and informal programs about the ecology of the West Central Georgia ecoregion.
